

One-day Restorative Dentistry Course: Success Simplified

Thursday 12 October 2023

**3M Ireland Limited, The Iveagh Building,
Carrickmines, Dublin, 18, D18 X015**

Successful indirect restorations made simple.

Strengthen skills and confidence in the design and execution of the indirect procedure, optimising techniques to gain performance in restorative dentistry.

The course covers concepts and best practice recommendations for the main procedure steps involved in making indirect restoration when restoring broken-down teeth. Utilising a simplified workflow, explore and experience the steps and techniques that let you confidently go from concept to completion to deliver predictable long lasting restorations.

Learn about treatment planning, decision-making steps for an indirect restoration (full or partial), ideal tooth preparations, when and why to bond or cement, practical impression making and fabrication of provisionals. This workshop will guide you on how to visualise, plan and create a treatment outcome.

Course aims and objectives:

- ▶ Restorative considerations for broken down teeth – diagnose and design
- ▶ How to plan, sequence and mock up cases
- ▶ Material choices and recommended preparation requirements
- ▶ Cementation strategies
- ▶ Tissue management and impression making
- ▶ Understanding temporisation phase and techniques
- ▶ Troubleshooting, protocols and checklists

Who is this day for?

Designed for practitioners who wish to update and improve their knowledge and skills in modern restorative techniques, the course aims to leave participants with increased confidence in their knowledge and competence in their clinical skills.

It will give you an immediate impact on what you do every day and hopefully you can return to your practice with a streamlined, systematic approach to improve experience and the quality of your results minimising the need for adjustments and remakes, thereby maximising profits.

**One day course: 09:30 – 17:30
(registration and coffee at 09:00,
lunch will be provided).**

Lectures (morning session) and hands-on (afternoon session).

Dr Akit Patel

BDS MFDS RCS MCLinDent MRD RCS
Specialist in Prosthodontics
