DENTO-PREP™ Microblaster

RØNVIG

Microblaster for cleaning and micro-roughening of ceramic, composite and metal surfaces prior to cementation. Ideal for both intra-oral and extra-oral applications
 Nozzle rotates 360° for easy access to all areas of the oral cavity. Powder jar acts as a grip - perfectly balanced and comfortable in your hand

- Easy finger operation with the valve button
- Easy installation by turbine quick couplings
- Made from high grade stainless steel and can be autoclaved by any method
- For use with aluminium and silicium oxide powder (particle size 20-80 um)
- Sterilize in an autoclave. Please read the operating instructions for further details
- Applicable with Dust-Cabinet for cleaning and sandblasting of indirect restorations

Only £270.90

RONV-1900

Aluminium Oxide Powder 50 Micron 900g

RØNVIG

- A micro-fine powder for cleaning and micro-roughening of ceramic, composite and metal surfaces prior to cementation
- Ensures reinforcement of adhesion with bonding agents
- For use with DENTO-PREP Microblaster
- Particle size 50 um

Only £29.50

EASE-IT™ Thermo-Block

RØNVIG

Reversible container for either seven composite syringes or pre-filled unit-dose tips
 To be placed on Ease-It™ Heating unit. The container can be removed from the heating unit and placed in convenient distance to the chair. Once heated, it maintains the temperature for 10-15 minutes

- Softens the composite, making it easier to adapt in thin layers and in small cavities
- Reduces the risk of incorporating air bubbles in the material
- Even grainy and highly viscous composites become shiny, smooth and manageable

Only £87.77

RONV-20016 13mm Compules & Syringes

RONV-20018 16mm For Larger Composite Syringes

ASPUECT® Syringe

RØNVIG

- Self-aspirating dental cartridge syringe for infiltration and block anaesthesia.
- Automatic aspiration.
- 2.2ml
